

Marnie Schigas

IT Program Manager • Parkgate resident of 25 years

Marnie has lived in the Parkgate area for 25 years and, along with husband Roland, has raised her three children here (all of whom have been involved with Parkgate Society in one way or another over the years). Throughout the years, Marnie has engaged with the community by volunteering with various local organizations, including the Mt. Seymour Preschool Board of Directors, Girl Guides of Canada, multiple sports organizations, and local schools.

Currently focused on IT Program Management, Marnie brings years of experience in project management, policy and procedures development, quality management, and auditing, along with critical thinking, problem-solving, and organizational skills to the Board.

With her children now grown and on their own, Marnie finds lots of time to enjoy the local environment and, when not engaging in her passion of field hockey, can often be found walking, running, or snowshoeing the local trails with friends.
